

Moderating a Web Conference

deutsche Version

User management

Via the user list, you can unlock individual participants, make them presenters or moderators, or remove them from the conference.

Further settings can be found by clicking the gear icon.

The screenshot shows the TU Clausthal web conference interface. On the left, there is a sidebar with sections: MESSAGES (Public Chat), NOTES (Shared Notes), and USERS (4). The users listed are Jeremias Hübner (You), test-user1, test-user2, and test-user3. A settings gear icon is visible next to the users list. The main area displays a 'Public Chat' window with a welcome message in German, instructions to find documentation, and a notice about copyright law. A settings menu is open, listing options: Turn off meeting mute, Lock viewers, Guest policy, Save user names, Clear all status icons, Create breakout rooms, and Write closed captions. Below the chat, there is a link to invite someone to the meeting and an access code.

„Guest policy“ allows you to restrict or open access to a room in an ongoing conference. You can choose to set up a waiting room where a moderator admits participants individually, or you can choose to “Always accept” or “Always deny” access to a room. Room access codes remain valid regardless of any settings selected in “Guest policy”. A moderator code grants access even if a room is locked.

If you have restricted access to a room by selecting "Ask moderator", you can admit participants individually as shown below:

The screenshot displays the moderation interface for a web conference at TU Clausthal. The interface is divided into a left sidebar and a main content area.

Left Sidebar:

- MESSAGES:** Includes a "Public Chat" option.
- NOTES:** Includes a "Shared Notes" option.
- USER MANAGEMENT:** Includes a "Waiting Users" option, which is currently selected and shows a red badge with the number "2".
- USERS (1):** Shows a single user, "Jeremias Hübner (You)".

Main Content Area:

- Waiting Users:** The title of the main section.
- Message to the guests' lobby:** A text input field with a blue send button.
- Review Pending Users:** A section containing four large buttons: "Allow all authenticated" (blue), "Allow all guests" (blue), "Allow everyone" (blue), and "Deny everyone" (red). Below these buttons is a checkbox labeled "Remember choice".
- 2 Pending Users:** A section listing two pending users:
 - [1] user_1:** Represented by a purple circle with "Us" and icons for adding, removing, and muting.
 - [2] user_2:** Represented by a purple circle with "Us" and icons for adding, removing, and muting.

Breakout rooms

You can select „Create breakout rooms“ if you would like to divide participants into groups for a specified amount of time.

The screenshot displays the TU Clausthal web conference interface. On the left, a sidebar contains sections for MESSAGES (Public Chat), NOTES (Shared Notes), and USERS (4). The user list includes Jeremias Hübner (You) and three test users. A settings gear icon is visible. The main area shows a 'Public Chat' header and a welcome message in German. A settings menu is open, listing options such as 'Turn off meeting mute', 'Lock viewers', 'Guest policy', 'Save user names', 'Clear all status icons', 'Create breakout rooms' (highlighted with a red line), and 'Write closed captions'. Below the menu, there is a link to invite someone to the meeting and an access code.

Für sämtliche Inhalte der Videokonferenzen gilt das Urheberrechtsgesetz.

von den dienstlichen Veranstaltungen hrt. Aufnahmen, nG), der ein chen (§19a UrhG) sind nur mit der Initiators der zulässig.

die Konferenz einzuwählen, rufen sie 05323-72-8871 an und geben dann 04500 ein.

To invite someone to the meeting, send them this link:

<https://webconf.tu-clausthal.de/b/jer-rvj-bv4-xsd>

Access Code: 105629

Settings menu options:

- Turn off meeting mute
- Lock viewers
- Guest policy
- Save user names
- Clear all status icons
- Create breakout rooms**
- Write closed captions

You can assign participants manually or randomly to a group, determine the duration of the breakout rooms and the number of groups (maximum 16). Check the appropriate boxes if you would like the whiteboard content and/or shared notes from the breakout room to be transferred to the main room upon closing.

Room 2

test-user1 ✕
 test-user3 ✕

Once breakout rooms are set up, all selected participants will automatically be invited to join. Participants can then join upon their confirmation. While in the breakout room, all participants have moderator rights. While the audio connection to the main room is lost upon entering a breakout room, the main room remains open and all participants remain connected.

When you click on „Breakout rooms“, all breakout rooms will be displayed. You can then join a specific room, increase the duration of time using the plus symbol, or close all rooms.

Once breakout rooms are closed either manually or automatically with the expiration of time, all participants are directed back to the main room.
